Community Development Assistants

CDAs play an important role in developing communities that enhance the educational, social and personal growth for on-campus residents. CDAs are live-in staff members that are required to live in the University residence halls for the entire academic year. Their primary duties include the following:

- In partnership with the RA of their area, actively build their residence hall community
- Establish a rapport and presence with residents
- Plan, implement, and evaluate community programs
- Support and participate in their Community Association
- Assist in department projects, events, and initiatives

The CDA position provides students a great opportunity to learn more about the on-campus residence halls and prepare
for more advanced residence hall positions, such as Resident Advisor, Student Hall Director, or Student Programmer.

If you are interested in this position, we encourage you to:

- Live on-campus
- Actively participate in your campus community
- Demonstrate excellent academic performance

Community Development Assistant recruitment begins around January-February of each year.

CDAs are compensated with a $150 monthly stipend and a credit for housing charges over the price of a traditional double room.
